Coventry and Rugby CCG

Chair's Report - July 2018

Engagement

I have been meeting with the local GP Alliance, cluster leads and Local Medical Committee (LMC) to build relationships and to encourage dialogue and drive to ensure the organisations recognise their unique viewpoint but represent themselves and their constituents to the wider population with a coherent, cohesive "voice of general practice".

Cllr. Seacole (Leader of Warwickshire Council) invited me for a dialogue with her Councillor with portfolio for health, Health and Wellbeing representatives and Public Health consultant to discuss the current state of health and social care collaboration and the work ahead.

I have begun my round of visits to all the GP practices in Rugby to listen to staff, inform and relationship build.

The new Lead GP Tutor for Education will have been appointed by the time of this report and we have been working hard to demonstrate to members our commitment to deliver high quality education.

STP

Both as a member of the Clinical Design Authority and Health and Wellbeing Boards I am working with other clinicians to add stronger clinical leadership to the STP.

I along with others have participated in training and workshops to evaluate local achievements, foster collaboration and learn best practice from other STPs in the West Midlands and further afield. I hope to bring a clearer clinical strategy and evidence of action and delivery to my future reports.
